SOUND-PROOF TELEPHONE BOOTHS
PUBLIC TELEPHONES
★★★★★STAR FEATURES OF THE CHICAGO SUBWAY
★Ventilation ★Illumination ★Escalators ★Safety ★Comfort

SOUND-PROOF Telephone Booths give that touch of personal consideration so much appreciated. Without the use of doors all outside noises are so effectively minimized that privacy is assured. The roar of fast subway trains and noises from the outside are almost entirely eliminated. Here you enjoy the same privacy as when telephoning from your home.

The Mezzanine floors are outstanding examples of modern architectural treatment. Concrete walls are covered with structural glass. Floors are red, non-slip concrete.

Travel in the Chicago Subway is pleasant and comfortable, speedy and safe.

GENUINE BLACKSTONE PRINT. BLACKSTONE STUDIOS, CHICAGO, ILL.
